- > Deadline for application October 16th 2020

> Are you our next intern?

You are driven and you thrive in a high-paced environment, you work just as well in teams as on your own. Your attitude is 'can-do', your work ethics command you to be meticulous, communicative and a seeker of above average outcomes, even if you have to go that extra mile to deliver within deadline. If you can say yes to this then an internship with Peaqs might be something for you. Peaqs is an EdTech spin-off of Artventure founded to make a positive impact within higher education and corporate learning. We consider Peaqs to be a startup within a long established Artventure framework,

so you'll get the best of both worlds:

The ability to influence the success and direction of a dynamic international start-up and the comforts of working conditions an established player can provide.

We tend to allocate our interns to a niche that matches their skills, and we welcome capabilities within (one candidate does not need to possess all):

- Campaign design and management
- IT project management and development
- Learning game design and consultancy
- Design of sales & marketing materials incl. video editing and maintenance of our online platforms

We aren't picky about your academic background as long as it or your previous work experience relates to any of the mentioned bullets.

Send your application today and join a great team in a professional but informal atmosphere dedicated to changing the world of teaching and learning within higher education. We start new internships in January and August. Learn more about Peaqs at Peaqs.com.
